ABSTRACT

The Illinois State Library has compiled statistical and other information about the public libraries in the state. The first section lists each library alphabetically, gives the name of the head librarian, county and type of library, and lists statistics on population, fees, hours, transactions, staff, book and non-book resources, assessed valuation, tax rate, funding, wages, materials and operating expenditures. Another section contains a directory of libraries which provides the librarian's name, library address, board president, the date the library was built, and the library system to which it belongs. A page is devoted to each of the state's 18 library systems, and includes system headquarters, address and phone number; headquarters library; names of director and president; and a list of libraries in the system. Other sections include lists of libraries by county, public libraries not in any system, association and endowed libraries, as well as an index of librarians, libraries, and areas served. A list of key personnel of the state library and their phone numbers is also provided. (LS)

explanatory notes

Population served — population according to the 1970 Census or a special Federal Census.

Transaction — the negotiation of charging one or more pieces of library materials as a single recordkeeping unit. For Illinois public library statistics to be comparable with national statistics, this definition has been used. The "total transactions" reported herein is the total for direct circulation to library users, and does not include loans to other libraries or bulk loans.

Total staff in FTE — includes all full-time staff and part-time staff in FTE (full-time equivalents) except maintenance personnel.

Assessed valuation 1972 — assessed valuation of real and personal property reported in thousands of dollars. Information is taken from the abstracts for the 1972 assessment year on file with the Illinois Department of Local Government Affairs.

Tax rate — shown as a percent and should be read "a tax rate of 0.12% is equal to 12 cents per $100.00." Information is taken from the abstracts for the 1972 assessment year on file with the Illinois Department of Local Government Affairs.

Total operating receipts — includes tax levy, money from other local government sources as well as other sources (fines and fees, endowments and gifts, other libraries, and other sources).

Operating expenditures

Wages and salaries — include wages and salaries paid to all staff except maintenance staff, plus other wage and salary related costs such as personnel insurance, social security, retirement, pensions, and other fringe benefits.

Total operating expenditures — in addition to wages and salaries, library materials, and other operating expenditures, includes moneys paid for services provided by other libraries and transfers to capital fund.
